The Master Plan was discussed; Whelpley explained the separation of the Ag zone and the residential zone. The maps needed for the Master Plan have been found and that we need to finalize the Master Plan. The Planning Commission is preparing a Township survey to get a little insight as to how the residents would like to see Township develop. It was said that the commission would go ahead with the revised survey to be mailed with the tax bills.

The website goldentownship.org was discussed. The .org site is still owned by Mr. Roseman. A letter sent by Mr. Roseman was read, see attached.

Chatterbox inc. a local website design company discovered that Mr. Roseman had purchased the .net for Golden Township on 2/19/2005 but, will purchase the .com for the Township. The Township will have to wait for Mr. Roseman to either not renew his hold on the Townships name or release it to the Township. It was unclear as to which he will do. The board's thoughts on information on the site were that all information must be approved by the board or website committee, and that it should only be those things that have been approved formally or finalized to insure people receive correct information. Meeting dates, blank applications of all kinds, voter registration and where and when any one can stop by the Township Hall and request to see any public information they wish. Chatterbox ask the board to pay ½ of the expense for the creation of the new site to be paid in advance, total cost not to exceed \$875.00 see attached.

Kolosci stated that a registered letter had been sent to North Star Cable in accordance with section 14 of the North Star Cable franchise agreement to take care of their obligation with Golden Township with a 60 day window before further action would be taken. Mr. Lathrop satisfied the agreement except the issue of the Name change/tax id number. Kolosci had contacted the Township attorney Ed McNeely and reported the following, that because they have a new Tax I.D. number it is not just a name change, that it is in fact a new entity. The Township can approve by resolution the new franchise transfer, but the attorney has asked that we obtain corporate documents from the Lite Wave/North Star Company so that we can see exactly what happened. A complaint letter from Gail and Jim Shulte was read; Mr. Lathrop said he would see to it personally.

No action taken.

The Silver Lake Canals that lead to the Silver Lake marina and cottage in Silver Village area were discussed, they are badly over run with weeds and could be a health issue according to Township residents Dave and Valarie Swartz. Cargill reported that the County drain commissioner had visited the site and explained that there is no flow and that there was really nothing he could do. It was stated that in the past the weeds had been harvested and sprayed for weeds by the Silver Lake, Lake Board. But it had not been done in awhile. Other ways to have the problem taken care of could be dredging etc. but it would be a special assessment for the property owners involved. Cargill said that it would be brought up at the next Silver Lake, Lake Board meeting. Cargill also reported that Silver Lake will be treated on May 16<sup>th</sup>, and that the lake levels will be fluctuating while the process takes place.

It was asked if the Township could look into a place for leaf dumping. Kolosci will follow up.
